

YASH KUMAR

Backend Developer | Python · Django · SQL | Open to Full-Time / Internship Roles
yk1577711@gmail.com • +91 99717 58962 • Delhi, India • linkedin.com/in/Yash-Kumar • github.com/Yash-Kumar

CAREER OBJECTIVE

Motivated Backend Developer and AI/ML Diploma student with hands-on internship and freelance experience building full-stack web applications using Python, Django and PostgreSQL. Proven ability to independently deliver production-grade projects from requirement gathering to deployment. Seeking a full-time developer role to contribute to a high-impact engineering team.

EDUCATION

DSEU Rajokri Campus, Delhi
Diploma in Artificial Intelligence & Machine Learning

Expected: June 2026

EXPERIENCE

Full-Stack Web Developer — Freelance

Camplaby

Aug 2025 – Dec 2025

- Designed and delivered a complete production-grade website from scratch using Webflow, HTML, CSS and JavaScript; managed all client communication, requirement gathering, design iterations and deployment independently.
- Built responsive landing pages, booking flows and dynamic content sections; optimised for mobile performance and cross-browser compatibility, ensuring consistent UX across all devices.
- Demonstrated full end-to-end project ownership — scoping, iterative development and on-time delivery within agreed timelines.

Web Design Intern — MERN Stack / Django

BrainyBeamInfo-Tech Pvt Ltd

May 2025 – Jun 2025

- Contributed to full-stack features using Django and MERN stack; participated in sprint planning, code reviews and Git-based version control in a professional Agile team environment.
- Built reusable UI components and integrated RESTful backend APIs; reduced code duplication and improved frontend scalability and page load performance.

PROJECTS

Multi-Purpose Delivery Platform | Django · Bootstrap · PostgreSQL · HTML/CSS

- Engineered a full-stack delivery app for food, groceries, parcels and gifting with secure Django auth, service-specific pages, image upload with live preview, and customer tracking sections.
- Optimised Django ORM queries and built modular HTML templates ensuring clean MVC architecture, scalability and easy maintenance.

Full-Stack Blogging Platform | Django · PostgreSQL · HTML/CSS

- Built a feature-complete blog CMS with user auth, profile management, post CRUD with rich-text formatting, image upload and comments following Django's MVC pattern.
- Implemented ORM indexing strategies and structured reusable template components ensuring consistent UI and high database performance under load.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), C, R, HTML5, CSS3

Frameworks & Tools: Django, Bootstrap, Webflow, REST APIs, Git, GitHub, VS Code, Linux CLI

Databases & OS: PostgreSQL, MySQL, SQLite, Linux (Ubuntu), Windows

Concepts: Full-Stack Dev, ORM, Auth Systems, Responsive Design, MVC Architecture, ML Fundamentals

CERTIFICATIONS & ACHIEVEMENTS

- Microsoft** — Python Advanced Certification
- Learning Unlimited** — Generative AI Certification
- Microsoft / Edunet** — Foundation Course on IR4.0 Technologies
- DSEU '26** — Hackathon Winner — 1st Place (rapid prototyping & problem-solving under time constraints)

EXTRA-CURRICULAR ACTIVITIES

- E-Cell Club Member — Participated in entrepreneurship events, startup ideation workshops and speaker sessions at DSEU.
- Event Organiser & Poster Designer — Led coordination of college tech/cultural events; designed promotional materials and banners for clubs.
